Only WINGITS® crafts polished stainless steel grab bars vs. chrome plating and inferior metals used by others

Clean flowing lines accent the durability and distinction

Crafted to all meet building codes, and exceed ADA, 2010 ADAAG and 2017 ANSI standards

Patented BridgeBind™ technology creates the ultimate structure

RATED UP TO 600 LBS.
When installed into adequate structural blocking or with WINGITS® patented GBWME40 Designer Grab Bar fastener in drywall with tile

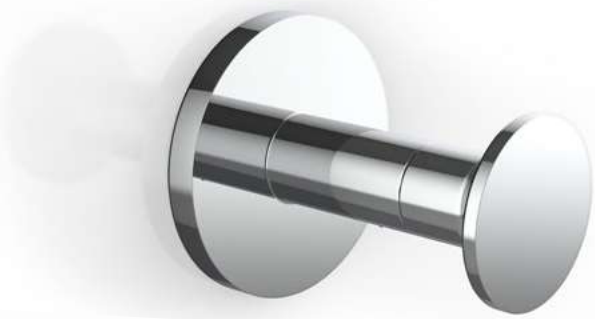

WINGITS® offers a GRAND stand-off option for all our collections, which is double the thickness of our standard base

A GRAND stand-off offers an extra design touch, and makes a bold statement

THE WORLD'S STRONGEST FASTENER®
Available for all WINGITS® products for quick and easy installation
Learn more about WINGITS® fasteners on page 43

WINGITS® will work with you to create a custom product or finish that fits any design idea

Anti-slip grab bars repel dirt and bacteria

WINGITS® exclusive Diamond Knurling pattern offers an excellent grip, and yet is still gentle enough for sensitive skin

Both Diamond Knurling and Peening are available, which feature a better gripping surface than a typical smooth metal surface

Pure 18/8 (304) stainless steel tubing

PLATINUM™ Grab Bars

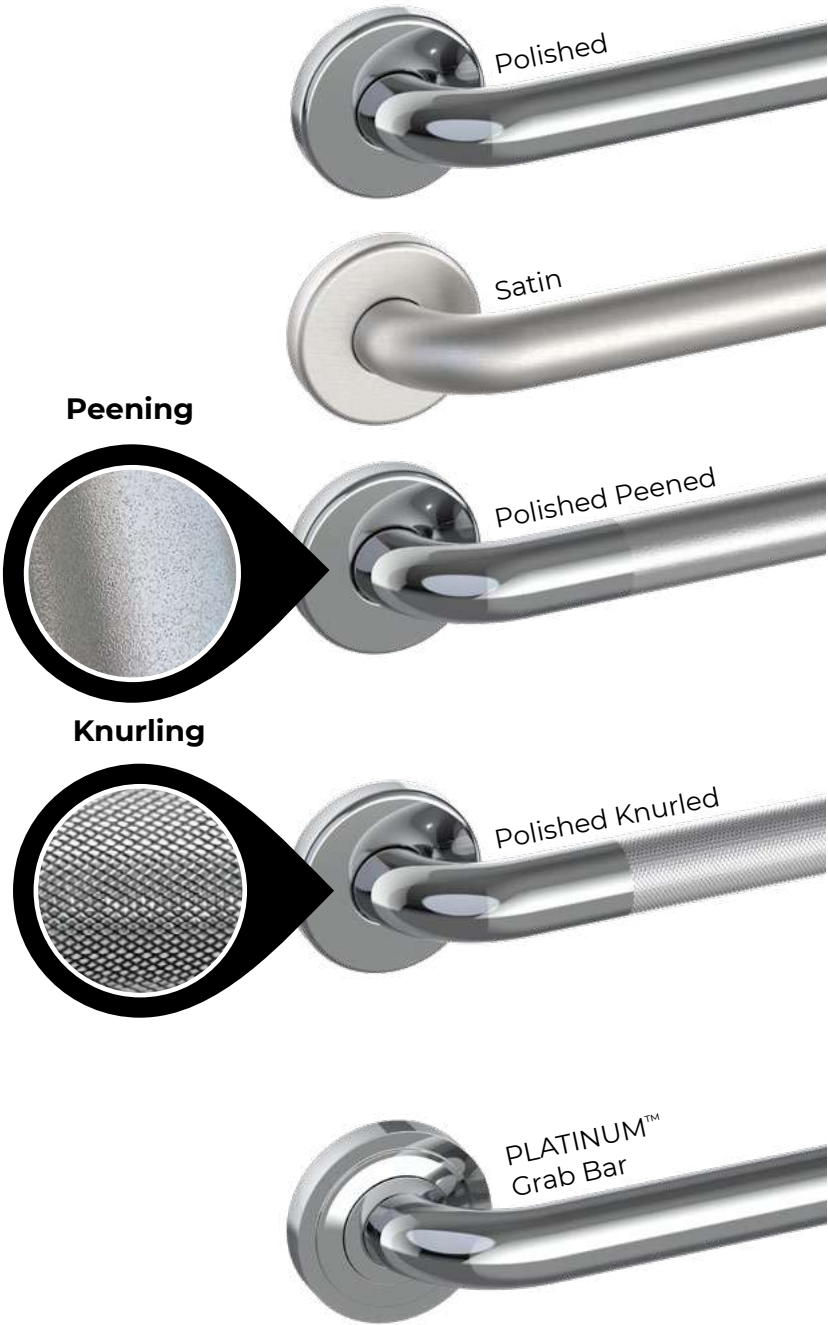

All parts are 18/8 (304) stainless steel, tubing is 18-gauge (1.2mm)

Heavy cast stainless steel threaded flanges tighten to form a waterproof seal

Meets or exceeds all building codes, ADA Criteria, 2010 ADAAG and 2017 ANSI standards

RATED UP TO 800 LBS.
when installed into adequate structural blocking, or with WINGITS® GBW40 THE BEAST™ Grab Bar fastener in drywall with tile

WINGITS® EXCLUSIVE SureGrip™ features anti-slip silica added into the paint for a superior gripping surface.

WINGITS® Poly Painted Grab Bars

Exceeds all building codes, ADA, 2010 ADAAG and 2017 ANSI standards

Pure 18/8 (304) stainless steel tubing

Polyester Fiber Paint, a three-component paint, utilizes a resin + catalyst + accelerant for the ultimate finish

Paint will never fade or show signs of wear

Available in any RAL color to match your design scheme

WINGITS® will work with you to create a custom product or finish if desired

Suitable for indoor and outdoor use

RATED UP TO 800 LBS.
when installed into adequate structural blocking, or with WINGITS® GBW40 THE BEAST™ Grab Bar fastener in drywall with tile

- Soft and warm to the touch
- Pure 18/8 (304) stainless steel tubing covered with a nylon sheath
- Exceeds all building codes, ADA, 2010 ADAAG and 2017 ANSI standards
- Excellent non-slip and antimicrobial gripping surface for hands
- Exceeds safety rails in hazardous locations criteria as well as barrier free accessibility guidelines, including ADAAG, for structural strength

- PURE Elegance™ shower seats and tub benches exceed minimum 250 lbs. load requirement per the 2010 ADAAG and 2017 ANSI Standards
- Stainless steel mount plate and hinge rated up to 450 lbs
- Beautifully designed and warm to the touch
- Installs directly into adequate structural blocking to prevent liability
- Heavy nylon antimicrobial sheath exterior with directional slats
- Folds up neatly after use

RATED UP TO 800 LBS.
when installed into adequate structural blocking, or with WINGITS® GBW40 THE BEAST™ Grab Bar fastener in drywall with tile.

PURE Elegance™ Shower Seats and Tub Benches are NOT compatible with WINGITS® fasteners and MUST be installed into adequate structural blocking

800 lbs. load capacity rating for legs-to-floor designs when installed into adequate structural blocking, or with WINGITS® GBW40 Grab Bar Fastener in drywall with tile

New and exclusive patented Lift-Assist™ technology makes WINGITS® shower seats the easiest to lift on the market

The only shower seats that comply with the 2010 ADAAG and 2017 ANSI Standards Five Pound Maximum Lift Force requirement (Code 309.4)

Our shower seats feature phenolic tops and structural stainless steel carriage construction

Available in reversible right and left handed placement to accommodate any bath configuration

Lift-Assist

Built for comfort and safety
Meets all building codes, and exceeds ADA criteria and 2010 ADAAG and 2017 ANSI standards

Physical support—helps those who have limited mobility

Available in a 1-Piece Phenolic material, Phenolic Slats or Padded Naugahyde

18/8 (304) stainless steel frame assembly + phenolic material for the top—extremely durable, non-porous, and anti-microbial

Exceeds 250 lbs. load rating when installed into adequate structural blocking, or with WINGITS® GBW40 Fastener for hollow wall installation in drywall with tile
